Expression of Interest: QLife Consumer Advisory Group (easier read)

Introduction:
QLife is here to support and chat with LGBTIQ+ people over the phone and through webchat. We talk about different things like sexuality, identity, gender, bodies, feelings, relationships, and more. Our team includes staff and volunteers who are also part of the LGBTIQ+ community and have personal experience with support services. Now, we want to hear more from you, the people who use QLife, so we can make even better decisions.

Creating the Consumer Advisory Group:
To make sure we're doing the best we can, we're setting up a Consumer Advisory Group. This group is for people like you who have used QLife (consumers). Your job is to share your thoughts and advice based on your own experiences. Here's what members of the group will do:

- Talk about your experiences using QLife and other similar services
- Give us feedback on how QLife is set up and how we do things
- Share your opinions on what decisions will make things better for LGBTIQ+ people

Group's Main Goal:
The main reason for this group is to make sure QLife stays connected to what LGBTIQ+ people need. When we listen to you and others in the community, we can be more effective and show respect in what we do. Your advice helps us make sure QLife is always helpful and supportive for everyone.

Guiding Principles:
The group will run based on these principles:

- **Collaboration:** We work together to build connections and make a positive impact.
- **Trauma-Informed for LGBTIQ+ people:** We recognize the unique challenges, historical trauma, and systemic issues faced by LGBTIQ+ individuals. Our goal is to create a safe, trusting, and validating environment.
- **Anti-Oppressive Practice:** We are committed to breaking down oppressive systems and promoting social justice. This includes challenging racism, sexism, ableism, transphobia, and heteronormativity.
- **Cultural Humility:** We are dedicated to ongoing self-awareness and learning. We seek insights from those with relevant lived experiences.
- **Confidentiality:** What’s shared in the group stays within the group. We create a safe, non-judgmental space for open dialogue, fostering confidence in expressing thoughts without fear.
- **Accountability & Transparency:** We take responsibility for our decisions. Our actions are open and clear for everyone to see.
